Step 1: Complete the reimbursement form for eligible expenses incurred during your FSA plan year. When appropriate, health care expenses should be processed by your insurance company first. An expense is incurred when the service is provided, not when you are billed or pay for the service. Appropriate documentation must be included to process your reimbursement.

You may submit one reimbursement form for multiple service dates. For Dependent Care we will reimburse up to the amount you have deposited in your account to date, minus any previous reimbursements.

To the best of my knowledge and belief, my statements in this request for reimbursement are complete and true. I am claiming reimbursement only for eligible expenses incurred during the applicable plan year for myself and/or my legal dependent(s). I certify that these expenses have not previously been reimbursed, nor will they be reimbursed under any other benefit plan and will not be claimed as an income tax deduction.
