- [RCCR Bream Attachments.pdf](#) - 2021-12-14 06:38:12 pm

**American Rescue Plan Act (ARPA)
Funding Application
Non-Profit, Community Groups, Neighborhood Associations, and Businesses
APPLICATION DEADLINE: December 15th 2021**

Application must be completed in full to be considered. Applications may be submitted online using this fillable form. But forms and attachments may also be submitted by email to ARPA@cityofcharleston.org or by U.S. Mail to City Manager's Office, 501 Virginia Street East Charleston, WV 25301.

All requests for funding **must be directly related to COVID-19 mitigation or recovery efforts** and must fall within the parameters of at least one of the goals set by the treasury department along with other requirements listed within this application.

GENERAL INFORMATION

*** Name of Project/Program:**

Service Center

*** Organization Name:**

The Religious Coalition for Community Renewal

*** Address:**

1117 Quarrier Street

*** Primary Contact Person:**

Kevin Jones

Title:

Executive Director

*** Phone:**

304-205-0234

*** Email:**

kjones@rccr.org

Federal Tax ID:

55-0670839

If applicable: DUNS Number:

943804864

To obtain a DUNS number please visit <https://fedgov.dnb.com/webform> After obtaining, please register your organization with the System for Award Management at <https://sam.gov/SAM/>

List the organization's owner(s), Board of Directors, senior staff members, and other key members:

President, Kristin Moody Clergy Vice President, Diane Honeycutt Lay Vice President, Candace Strader Secretary, Kellen Shearin Treasurer, Laura Ceperley Benjamin D. Adams Mason Ballard Madelyn K. Dotson Mary McFarland Cindy Richardson Alma Rodriguez Staff Executive Director, Kevin Jones Bookkeeper, Rebecca Morgan Program Director, Natasha Stout Program Manager, Nichole Harrison Program Coordinator, Miranda Nabers

Describe any partner organizations, their roles, and your relationship with them:

Bream Memorial will provide the building for the service center and Level I residential recovery program. Bream has a rich history of outreach to our community. Currently fifteen organizations and groups in the greater Charleston area call Bream home. Bream's community partners include Cabin Creek, Health Rite, West Virginia Breast Health Initiative, and Appalachian Service Project, to name a few. For decades, Bream has served the homeless by providing a food pantry and clothing closet for those in need. Bream was a founding member of the Religious Coalition for Community Renewal (RCCR). The Kanawha Valley Collective (KVC) provides coordinated entry for screening and assessment, prioritization and program matching, and connections to mainstream services to help those seeking housing and services access appropriate programs more efficiently. RCCR's Executive Director services as the KVC's Vice President.

BUDGETARY OVERVIEW - Must match Budget Worksheet

* Funds Requested	* Total Program/Project Cost	Annual Organization Budget
1,461,552	1,461,552	1,199,582

Request Summary

1. Provide a narrative overview/summary of the request.

Topics that may be included but not limited to:

- Purpose and anticipated outcomes
- Individuals, entities, or communities served
- How the pandemic has necessitated this request
- Amount of any estimates and bids received to date
- Timeline for project completion

This proposed project will create a drop-in service center providing information on community programs and resources with access to food, clothing, showers, laundry, personal belonging storage, computer lab, transportation, housing assistance, and a residential recovery program. Day shelter programs are an important resource for people experiencing homelessness, offering respite from inclement weather, social stigma, victimization, and access to essential services and resources. The project will utilize a space known as the Hubbard Building located at Bream Memorial Presbyterian Church 317 W Washington St, Charleston, WV 25302. The service center works directly with those seeking services and case managers to make connections to community resources and services. Accessing these resources will help transition a person from homelessness to housing. Persons experiencing homelessness experience significant barriers to self-care and personal hygiene, including limited access to clean showers, laundry and hand washing facilities. The inability to maintain good hygiene has many implications for homeless persons such as embarrassment and depression. Personal hygiene has also been identified as a positive contributor to mental health among persons experiencing homelessness. The scope of project will include a complete renovation of the Hubbard Building. Downstairs will feature four (4) showers and restrooms, four (4) washers and dryers, 4 (four) computers, seventy-five (75) lockers for personal belonging storage, a clothing boutique, food distribution, a lounge area, four (4) offices, staff restroom, and centralized service area. The computer lab helps to close the digital divide, which is defined as "the divide between those with access to new

technologies and those without". When individuals experiencing homelessness have access to technology and training, a study found the population successfully used the technology to address their specific concerns improve health knowledge, attitudes, and emotional well-being. Lockers is an important component of the service center and will expand upon RCCR's transitional storage center located in St. Mark's United Methodist Church. Since opening in May 2021, the transitional storage center has served one hundred seventy-eight (178) clients with seventeen (17) clients housed, six (6) clients reunified with family and five (5) are living in sober living homes. The storage component empowers individuals experiencing homelessness by providing a safe space for them to store their belongings and focus on the barriers that prevent them from obtaining employment and housing. Upstairs, will feature a recovery residence offering an alcohol and drug free environment for men who have established adult living skills, able to self-regulate, and committed to recovery. The residence is a non-medical setting designed to provide a substance-free living environment for men to transition from highly structured residential treatment programs back into their day-to-day lives (e.g., obtaining employment and establishing more permanent residence). The residence will feature a secure entrance, eight (8) single occupancy rooms, two (2) showers and restrooms, two (2) staff offices, one (1) washer and dryer set, one (1) centralized kitchen, with a common living and dining room area. The men may stay for up to 24 months. Additionally, the project will feature solar panels to reduce overall long-term electricity costs and create a greener and more sustainable building. Further components of the project will offer a transportation program to help shuttle individuals among service providers on a designate schedule. When transit programs have been introduced and reviewed, they have been shown to successfully increase employment opportunities and job security; raise the amount of funds available for other basic needs; allow greater access to asset building opportunities such as education and employment training; improve health outcomes by providing access to medical facilities and appointments; reduce social exclusion through increased ability to meet with one's social support network and attend community events; and enhance quality of life due to a greater sense of independence, increased social connections, sense of contribution to the community, and reduced stress. RCCR's program, Home Match which offers rental market research, outreach and education, recruitment, incentivization, and retention of landlords will be expanded to assist individuals and find housing opportunities for people experiencing homelessness. The center will be staffed with one (1) Program Manager, one (1) Supportive Services Coordinator, one (1) Recovery Specialist, and additional staff provided through agency partnerships. Currently fifteen organizations and groups in the greater Charleston area call Bream Memorial home and community partners include Cabin Creek, Health Rite, West Virginia Breast Health Initiative, and Appalachian Service Project to name a few. Individuals who access the shelter will be assessed within the Kanawha Valley Collective coordinated entry system for uniform screening and assessment, prioritization and program matching, and connections to mainstream services to help those seeking housing and services access appropriate programs more efficiently. From funding approval, we anticipate 8 months before the program is operational. This is due to COVID supply chain delays and RCCR's experience with construction delays during the pandemic. The goal is to open the service center in October 2022 and begin accepting residents in the recovery program in November 2022. Goals: 1. To provide a safe place for individuals experiencing homelessness to preserve human dignity and promote positive direction. 2. Increase the number of connections to housing programs and community resources. 3. A safe environment to recover from homelessness and addiction.

Attach any additional information such as bids, concepts, designs, letters of support, etc. If submitting electronically the documents must be in PDF, Excel, or Word format and total file size must not exceed 10 megabytes.

Program/Project Details

* 1. The funding will be used to:

- Start a new program/project
 Maintain an existing program/project
 Expand an existing program/project

* 2. If funded, will the program/project be completed within FY 2022?

- Yes No

If no, when is expected completion year?

FY2025

3. Which eligible ARPA Expenditure Category does this program/project represent (See

<https://home.treasury.gov/system/files/136/SLFRF-Compliance-and-Reporting-Guidance.pdf> for further details)? Please check all that apply:

*

- Public Health
 Negative Economic Impacts
 Services to Disproportionately Impacted Communities
 Premium Pay
 Infrastructure
 Other

4. Briefly describe the program/project funds are being requested for:

Funds will be used to renovate the Hubbard building to accommodate a service center downstairs and residential recovery program upstairs to include: Renovation Technology – Solar Panels, secured entrance, Internet service Program Supplies and Materials - lockers, furniture, computers, office equipment Staffing Costs - 3 full-time and 1 part employee with temporary security for 6 months to ensure a flow of clients away from the pre-school entrance. A breakdown is included with the budget summary.

5. Describe the need for this program/project:

Covenant House closed their service center in March 2020. As a result, only temporary solutions were implemented with various agencies which resulted in periods of no access to laundry or showers to the unsheltered population of Charleston. No service center means more of our unsheltered have nowhere to go during the day. Roark Sullivan operates one shower and a set of washer and dryers within their administrative building. However, it is not a traditional drop-in offering a respite service center. Bream Memorial offers limited showers a few days a week due to the location being next door to their preschool. The Hubbard building renovation will allow Bream Memorial to expand and relocate services across their campus into one building. RCCR's transitional storage center has held surveys to determine current service delivery approach and our clients hopes for a drop-in service center. People who are struggling with homelessness often rely on public transit or case workers for transportation to appointments, meetings, and community services. A transportation service will assist individuals with service providers across the city to further address housing instability, including substance use disorders and mental illness. Additionally, it takes an enormous amount of energy for individuals experiencing homelessness to spend their day outside the shelter (in all weather conditions) with no place to feel welcome. A drop-in center open during the day will provide a safe space for the unsheltered and fill a large gap in the current social service system. COVID has been particularly devastating for people with substance use disorders. Throughout 2020 individuals were "social distancing" and many recovery support services and support groups like Alcoholics Anonymous were cancelled, restricted, or shifted to virtual platforms. According to the Centers for Disease Control and Prevention, as of June 2020, 13% of Americans reported starting or increasing substance use as a way of coping with stress or emotions related to COVID-19. Overdoses have also spiked since the onset of the pandemic. A reporting system called ODMAP shows that the early months of the pandemic brought an 18% increase nationwide in overdoses compared with those same months in 2019. The trend has continued throughout 2020, according to the American Medical Association, which reported in December that more than 40 U.S. states (including West Virginia) have seen increases in opioid-related mortality along with ongoing concerns for those with substance use disorders. RCCR's men's recovery program has continued to see an increase in applications and a demand for our residential services.

6. List other Charleston organizations in Charleston that address this need:

There are no drop-in service centers in Charleston. Services are segmented across the city with a focus on the East End.

7. Describe the level of collaboration with other organizations on this program/project:

Bream Memorial will provide the building for the service center. Bream has a rich history of outreach to our community. Currently fifteen organizations and groups in the greater Charleston area call Bream home. Bream's community partners include Cabin Creek, Health Rite, West Virginia Breast Health Initiative, and Appalachian Service Project, to name a few. For decades, Bream has served the homeless by providing a food pantry and clothing closet for those in need. The Kanawha Valley Collective provides coordinated entry for screening and assessment, prioritization and program matching, and connections to mainstream services to help those seeking housing and services access appropriate programs more efficiently.

8. How will duplication of services be prevented?

COVID has increased the demand for services. There is a misconception that resources are duplicated, however communication between agencies and area churches helps to keep potential clients from "double-dipping". Service point is the homeless management and information system (HMIS) used by providers to access client transactions and help prevent any duplication of services.

Program Requirements and Objectives

1. Identify the target recipients of proposed services. Specify the number of City residents the program will serve during the fiscal year and explain the basis upon which this number is calculated.

We anticipate serving over 500 individuals annually 30% AMI and under. The number is based on the HMIS data that reported over 700 individuals utilized the service center when it was operational in 2019.

2. List any eligibility requirements the program has with respect to age, gender, income, or residence.

Any person experiencing homelessness who is in need of basic necessities, medical and mental health services, housing assessment, and referrals. A VI-SPDAT (Vulnerability Index - Service Prioritization Decision Assistance Tool) will be administered to individuals to determine risk and prioritization when providing assistance to homeless and at-risk of homelessness persons.

3. If this is a continuing activity, describe a measurable outcome of the previous year's work regardless of funding source.

N/A

4. If this is a new program describe two anticipated measurable outcomes for the proposed program.

1. To provide a safe place for individuals experiencing homelessness to preserve human dignity and promote positive direction. 2. Increase the number of connections to housing programs and community resources

Budget*** 1. Has the organization received funding from the City of Charleston in the past for a similar program/project?** Yes No*** 2. Has the organization requested funding from other Federal, State, or Local government entities for any program/project support related to COVID-19?** Yes No**3. If yes, explain from which entities and the amounts requested for each program/project.**

City of Charleston American Rescue Funds - Low Barrier Transitional Shelter \$3,556,624.59

4. List any other Federal, State, Local, or private funding or grant awards received in the last three years and the amount and status of each award.

5. Briefly summarize project revenues and expenses related to this request. This should coincide with the budget worksheet.

Salaries \$516,600 Salaries – salaries and wages paid for services rendered by 3 full-time employees, 1 part-time employee and security provided by a third-party vendor. Amounts are calculated for 3 years 1 (FT) Program Manager \$47,000 annually (\$141,000) 1 (FT) Program Coordinator \$44,000 annually (\$132,000) 1 (FT) Recovery Specialist \$41,000 annually (\$123,000) 1 (PT) Transportation Driver \$25,000 annually (\$75,600) Security 6 months \$45,000 Fringe Benefits \$84,000 Fringe Benefits –FICA, retirement, health care, dental, unemployment compensation for 3 full-time employees over 3 years. Contracted Services \$57,000 Contracted Services –Accounting services, consultation reporting, and technology. Based upon quotes received from Jacobs and Company for technology service such as security and internet services. Historical costs for accounting services and consultation. Accounting \$15,000 Jacobs and Company \$42,000 (one time cost \$33,000 / \$4,500 annually) Supplies \$98,000 Office supplies \$25,000 (staff computers, office supplies, desks, chairs). Historical costs associated with other programs. Residential furniture \$73,000 (beds, mattresses, desks, dressers, living room/dining room furniture, kitchen furnishing – stove, refrigerator, washers, and dryers for 8 men). Based upon historical costs associated with the recovery program for 9 men. Other \$705,952 Other – Public utility services (electric, water, garbage, sewer, internet), incentives for landlords, program administrative costs, and transportation program costs. Renovation \$275,000 (budget amount for permits, sewer/water line infrastructure, and solar panels. Based upon renovation of 4,000 sq foot residential program) Landlord Incentives \$40,000 (based upon \$700 average incentive for an average of 57 landlord rental units) Lockers \$14,000 (based upon historical costs associated with purchasing 76 lockers in 2021) Admin Costs \$155,000

(administrative costs associated with implementing and running the program) Transportation Van \$80,000 (1 van with ADA compliance) Transportation Van \$29,952 (fuel and maintenance for vehicle) Utilities \$112,000 (for 3 years to cover electricity, sewer, gas water, and internet costs – average of 9-unit residential building).

6. If this request is not fully funded, what adjustments to the program/project is the organization prepared to make?

We will revise the proposal based upon the awarded amount to ensure project feasibility. However, a drastic reduction will impact the anticipated outcome and project scope.

7. Describe the plan for sustainability of the program/project or initiative after the requested award has been exhausted.

Since 2001, RCCR has been a Community Housing Development Organization (CHDO) which allows us to obtain federal funds to build homes for low-income families. When the homes are built and sold, the proceeds are used to build additional homes with the second turn of proceeds unrestricted. The additional annual revenue from our unrestricted CHDO development will provide the gap funding for this program and others. Also, we will apply for the State, Federal, and Foundations and other sources of funding.

8. Briefly describe the organization’s fiscal oversight / internal controls to minimize opportunities for fraud, waste, and mismanagement.

RCCR has administrative and financial management systems in place that provide internal controls to prepare reports required by the terms and conditions of grant award. Our systems track grant funds to establish that the funds have been used according to federal statutes, regulations, and the terms and conditions of the award. Our financial management system establishes and identifies a separate account for each federal award received and expended.

9. How does your agency plan to separate ARPA funds from other agency funds for purposes of identification, tracking, reporting and auditing?

The funds will be designated as its own project with a categorized budget within our accounting software. The project will have progress reports and annual audits to ensure compliance with government regulations and evaluate financial information, including expenses paid for with federal award funds.

Organizational Details

1. Describe the history of the organization and its current programs and activities.

In 1984 the "Mayor's Task Force on Homelessness" was struggling to find a solution to the problem of homelessness in Charleston. It became clear that there was not one solution, but that it would take a variety of approaches to adequately meet the needs. Out of the Task Force discussions came the vision of a religious response to the needs of the homeless. Thus, the RCCR was born. It was made up of Protestant, Catholic and Jewish congregations, representing 10,000 to 12,000 citizens of Charleston. The Religious Coalition for Community Renewal, established in 1987, is a 501(c)3 not for profit organization in Charleston, West Virginia. The RCCR is a membership organization with over 30 religious interfaith congregations making up its membership.

Recovery Housing A residential recovery program with supportive services for up to 9 men and a safe environment to recover from homelessness and addiction.

Rental Housing Provides permanent independent rentals for individuals at 30% AMI or less.

Housing Counseling Encourages affordable, homeownership through prepurchase counseling, budgeting, and foreclosure prevention.

Home Ownership Build new homes that are sold to first-time homebuyers who are mortgage qualified and who are at 80% AMI or less.

Rapid Rehousing Assists families who are currently homeless to quickly find housing and helps cover rental start-up costs, typically the security deposit, the first 2-6 months of rent, and case management.

Clothing Boutique Provides free clothing for our unsheltered neighbors.

Homeless Outreach and Mobile Engagement Street Outreach ensuring basic needs are met while supporting the unsheltered toward housing stability.

Transitional Storage Center A safe place for people experiencing homelessness to store their personal belongings

2. Provide the organization's mission statement/purpose.

Acting cooperatively from our various faith traditions, the Religious Coalition for Community Renewal develops projects and programs which help renew our community by identifying, addressing, and overcoming obstacles which keep people from decent, affordable housing.

3. List any third-party references that can verify the organizations qualification or prior grant experience.

Margaret Ann O'Neal President, Chief Professional Officer United Way Of Central West Virginia moneal@unitedwaycwv.org Phone 304-340-3503
 Jana K. Stoner Health Program Officer Pallottine Foundation jkstoner@pallottinehuntington.org Phone 304-397-5955

COVID-19 Impact

1. Explain the impact of the COVID-19 pandemic and how it relates to your request. For example, reduction in services, closures, increased costs, community impact, etc.

The pandemic has exacerbated crises that existed long before COVID-19. This is evident in the pandemic's influence on homelessness and housing insecurity among low-income renters. We have seen a demand for all our housing services. In 2020, we served more men recovering from substance use disorder than in any given year. This year alone we have received over 250 requests for assistance with rent and utilities. This is triple the number of requests we received pre-pandemic. Local shelters have experienced lock down due to COVID and unable to admit new residents. This resulted in limited capacity to provide immediate emergency shelter access to anyone who needs it and more unsheltered on our streets. In addition, the only service center in Charleston closed during COVID creating a void in services.

2. If funds are being requested to replace revenue lost due to COVID-19, provide details, and attach supportive documentation.

N/A

3. If awarded, how will ARPA funding aid in the recovery from the COVID-19 pandemic?

A service center open during the day will provide a safe space for the unsheltered and fill a large gap in the current social service system. By providing a secure and stable space for people during the day, as well as the professional guidance needed to navigate the process for becoming housed, that those seeking help will enter permanent housing sooner, thereby making our community healthier, stronger, and safer for all.

THE APPLICANT UNDERSTANDS:

*

- 1. This application and other materials submitted to the City may constitute public records which may be subject to disclosure under the West Virginia Freedom of Information Act. Documents containing sensitive information may be marked as "confidential."**

*

- 2. Submitting false or misleading information in connection with an application may result in the applicant being found ineligible for financial assistance under the funding program, and the applicant or its representative may be subject to civil and/or criminal prosecution.

THE APPLICANT CERTIFIES THAT:

*

- 1. I have reviewed the US Treasury guidelines regarding the eligible uses of American Rescue Plan State and Local recovery funds. <https://home.treasury.gov/policy-issues/coronavirus/assistance-for-state-local-and-tribal-governments/state-and-local-fiscal-recovery-fund/request-funding>

*

- 2. By submitting this request, I represent that I am an authorized officer, or member of the organization for which I am submitting, and the information contained in my submittal is true and correct to the best of my knowledge and belief.

*

- 3. The information submitted to the City of Charleston ("City") in this application, and substantially in connection with this application, is true and correct.

*

- 4. The applicant is in compliance with applicable laws, regulations, ordinances and orders applicable to it that could have an adverse material impact on the project. Adverse material impact includes lawsuits, criminal or civil actions, bankruptcy proceedings, regulatory action by a governmental entity or inadequate capital to complete the project.

*

- 5. The applicant is not in default under the terms and conditions of any grant or loan agreements, leases or financing arrangements with its other creditors that could have an adverse material impact on the project.

*

- 6. I understand and agree that I must disclose, and will continue to disclose, any occurrence or event that could have an adverse material impact on the project.

*

- 7. I certify that the requested funding is needed to ensure this program/project will occur within the City limits of Charleston West Virginia.

*

- 8. The Board of Directors or governing body of the organization has approved submission of this application. Please attach a copy of the authorizing resolution or meeting minutes using the file upload.

Shelter for people experiencing homelessness, built in under an hour.

Durable, dignified, and cost-effective shelter solutions.

"I can't believe that we were able to complete an entire community over the course of two weeks."

- Lynda Hopkins, Sonoma County Board of Supervisors

Designed and Built by People with Lived Experience in Homelessness

When we set out to design a personal shelter for people experiencing homelessness, **we asked people experiencing homelessness what they needed** to improve their lives.

Our personal shelters are more effective at transitioning people into permanent housing because they are designed and built by people with lived experience in homelessness - most people who build our shelters are formerly homeless, addicted, or incarcerated themselves, and your purchase of Pallet shelters helps to employ this nontraditional workforce.

Features:

Rapid

Pallet's simple and durable shelters can each be built by a team of two people in less than an hour with minimal tools, making them a scalable solution.

Proven

Pallet's personal shelters have a higher adoption rate and are a proven stepping stone out of homelessness and into stability.

Private

Each shelter features a locking door for privacy, and personal shelters allow residents to practice social distancing for the reduction of virus transmission.

Comfortable

Features like insulation, heating, air conditioning, openable windows, and other ventilation throughout offer individual climate control.

info@palletshelter.com
208-572-5538

Sanitary

All shelter materials are easy to sanitize and clean between uses, and the structure is resistant to mold and pests. Personal shelter reduces virus transmission.

Panelized

Shelters can be individually stacked for low-cost warehousing or shipping. Each panel is light enough to be carried by hand.

WHY PALLET

No one should go unsheltered when a shelter village can be built in a day.

Pallet is the leader in rapid-response shelter villages. We respond to emergencies and housing needs with solutions built fast, at scale. From private sleeping cabins with lockable doors to on-site bathrooms, our village residents have peace of mind while they rest their heads in a safe space. Each shelter can be assembled in under an hour.

Social Purpose Company

Pallet hires and invests in people actively engaged in recovery. More than 80% of our team has experienced homelessness, substance use disorder, or the criminal justice system, and has found stability through meaningful employment. We're builders at heart, and train our employees with the skills they need to be successful.

End-to-End Support

Pallet has built thousands of sleeping cabins across the United States. Our team offers personalized consultative services to all clients. We have end-to-end expertise in the multi-stakeholder process required to create healing shelter villages at speed and scale.

CASE STUDIES

Fayetteville, AR

New Beginnings Village is specifically designed to meet the complicated needs of people who are chronically unsheltered. Pets, partners, and possessions are welcome, and village residents will have access to wraparound services including trauma informed care.

Burlington, WA

With 38 Pallet shelters, Skagit First Step Center is a low barrier village where residents have access to mental health and substance use support, employment services, medical visits, meals, and transportation. The site serves as a stepping stone to permanent housing.

Los Angeles, CA

For the thousands of people who live on the streets, housing couldn't come fast enough. Los Angeles worked with Pallet to build over 1,200 shelters in a matter of months. Nine villages were manufactured from the ground up - built at speed and scale to serve an immediate need.

SHELTER 64

Assembled in under one hour, our durable, comfortable, and private sleeping cabins offer residents their own space to call home. The 64 sq. ft. shelter has vaulted ceilings and plenty of storage space.

- Disassemble up to 40+ times for flat storage or relocation
- 10+ year material lifespan
- Made of insulated material resistant to mold, mildew, rot, and pests

SHELTER 100 / SERVICES OFFICE

Our 100 sq. ft. shelter uses a folding bunk system to house up to four beds. Or, use the space as an on-site services office.

- Easy to clean and sanitize between residents
- Openable windows and roof ridge line for superior ventilation
- Safety features are included, such as a smoke detector and egress door

BATHROOM

We build easy-to-clean community bathrooms. With our 100 sq. ft. unit, select a configuration of showers, toilets, and sinks for your residents.

- Private rooms for security and dignity
- Motion-activated lighting and ventilation
- Installed in less than one day with minimal ongoing maintenance requirements
- ADA accessible units available

COMMUNITY ROOM

A central location to access meals and services, assembled in just one day. Choose between a 400 or 800 sq. ft. unit.

- Secure ventilation system
- Floors are slip resistant, which is helpful when serving food and beverages
- Each door and window is lockable

HAND-WASHING STATION

A portable, self-contained hand-washing station provides sanitation for all. An integrated foot pump and dual-chamber water system eliminates the need for on-site power or water infrastructure.

- Wheels and handbar for relocation
- Lockable dispensers for soap and paper towels
- Dual on-board water chambers for supply and gray water, with handles for easy filling

OPTIONAL FEATURES

- Electric connectivity kit for municipal, generator, or solar power supply
- Wall-mounted heater
- Air conditioner
- Ceiling-mounted interior lighting
- Cold weather package with increased insulation

No agreement to purchase or sell products or services shall be binding upon Pallet SPC absent a written and executed SOW.

KANAWHA VALLEY
COLLECTIVE
1 UNITED WAY SQUARE

December 13, 2021

To Whom It May Concern:

On behalf of the Kanawha Valley Collective please accept this letter of support for the Religious Coalition for Community Renewal's (RCCR) low barrier transitional shelter proposal. RCCR has identified a year-round and low-barrier shelter for single individuals as a critical gap in Charleston's homeless services system.

For over thirty years, RCCR has worked tirelessly to develop projects and programs which help renew our community by identifying, addressing, and overcoming obstacles which keep people from decent, affordable housing. For emergency shelters, creating a low barrier environment means removing as many pre-conditions to entry as possible and responding to the needs and concerns of people seeking shelter. This proposal utilizes strong partnerships with community organizations that deal frequently with chronically homelessness in a holistic approach. The Kanawha Valley Collective will partner with RCCR to fill shelter vacancies through referrals from the coordinated entry process.

We strongly support RCCR's low barrier transitional shelter proposal.

Sincerely,

A handwritten signature in black ink, appearing to read 'T Strickland', written over the word 'Sincerely,'.

Traci Strickland
Executive Director
Kanawha Valley Collective

To Whom It May Concern:

On behalf of Manna Meal please accept this letter of support for the Religious Coalition for Community Renewal's (RCCR) low barrier transitional shelter proposal. RCCR has identified a year-round and low-barrier shelter for single individuals as a critical gap in Charleston's homeless services system.

For over thirty years, RCCR has worked tirelessly to develop projects and programs which help renew our community by identifying, addressing, and overcoming obstacles which keep people from decent, affordable housing. For emergency shelters, creating a low barrier environment means removing as many pre-conditions to entry as possible and responding to the needs and concerns of people seeking shelter. This proposal utilizes strong partnerships with community organizations that deal frequently with chronically homelessness in a holistic approach. Manna Meal will partner with RCCR to provide nutritious food and respond to the needs of clients; especially special diets for common medical conditions, such as diabetes and cardiovascular disease.

We strongly support RCCR's low barrier transitional shelter proposal.

Sincerely,

Amy Wolfe, MSW

Re: Drop-in Center and Low Barrier Shelter Access to Vulnerable Populations in the Charleston Area

Dear Mr. Jones,

Cabin Creek Health System (CCHS) is providing this letter of commitment in support to the Religious Coalition for Community Renewal (RCCR).

It is our understanding that the RCCR offers housing resources and coaching to in-need and at-risk populations throughout the area. In addition to these services they operate a Transitional Storage Center, "The Boutique" offering person-centered clothing resources, and targeted case management and outreach throughout the community. In this effort they assist the communities most vulnerable connect to necessary resources and provide opportunity to improve their ability to maintain or improve their daily lives.

Cabin Creek Health System operates six Community Health Centers, five School-Based Health Centers, utilizing an Integrated Primary Care (IPC) model. CCHS is a Federally Qualified Health Center, Patient Centered Medical Home. The system offers dental, primary care, behavioral health, substance use disorder treatment including Medication Assisted Treatment and Contingency Management, discount pharmacy, as well as other services.

CCHS has already been utilizing the access created by the RCCR, Transitional Storage Center, and Boutique as a routine site to provide health services via CCHS Mobile, a two-exam room mobile health center. Through the work with the RCCR, any interested client or resident has a referral pathway into services, or on-site services for adjusted or no costs.

Cabin Creek Health Systems fully endorses the RCCR's efforts to increase access to those experiencing homelessness through the use of a Drop-in Center, and Low-barrier Shelter. The Charleston, WV area does not currently have these resources which limits those experiencing homelessness from being connected to necessary resources, specifically safety, hygiene, healthcare, and basic human dignity. CCHS would proudly provide its available services to the population served by the RCCR to better support the community served with patient-centered healthcare.

**John "Jake" P. VanHorn Jr., PsyD
Cabin Creek Health System,
Community Impact Officer**

The quote provided to The Religious Coalition for Community Renewal by Jacobs & Company B.I.T.S. includes the estimated cost of goods and services to accomplish the written goals of: Infrastructure Buildout for new two-story structure, Full Wi-Fi coverage of the 25 new miniature structures, and access control to the new facilities. Below will break down the estimates included in the quote.

The new two-story structure was defined as having 7 offices and a copy/conference room. We recommend 2 drop locations of 2 Cat6A ethernet cables to each office, and 4 drops for the Copy/Conference room. We recommend RCCR to include in their floorplan a room to designate as a Networking Closet to centrally install the network infrastructure. Materials required for this are: 36 Cat6A rated ethernet cables, 36 RJ-45 connectors, 28 in-wall low voltage rings, 36 Cat6A keystone connectors, a wall mounted networking cabinet with lockable access, a 48 port Patch Panel, a 48 PoE managed networking switch, 36 ethernet patch cables of various lengths, j-hooks for cabling infrastructure in the ceiling, and a UPS. In addition to the networking infrastructure, we recommend installing a split unit air conditioner in the space designated as the network closet with a locked door.

To get internet into the new facility, it is our recommendation to use a Wireless Point-to-Point Bridge between the current facility where the ISP D-Marc is and the new facility. The required materials for this solution are mounting poles, 2 building-to-building bridge radios, 2 Cat6A ethernet cable, and the RJ-45 and Keystone connectors to connect them to the networking infrastructure.

From the new building infrastructure, building out a mesh wireless network that covers the miniature structures will require the following materials: Outdoor rated Cat6A ethernet cable, outdoor rated conduit, RJ-45 connectors, 2 UAC-AP-M-PRO-US Ubiquiti mesh wireless antennas, and outdoor rated surge suppressors.

To secure and monitor the property, B.I.T.S. recommends strategically installed 4MP security cameras around the new building that feed a Network Video Recording server, and a remotely controlled access solution for the front gate. For this solution, the materials necessary would include: 4MP IP security cameras (5 at minimum but is subject to change based on the layout of the facility), a local Network Video Recording server, Access Control Software, and the cabling infrastructure (Cat6A Ethernet cable, RJ-45 and Keystone Connectors, and Access Control copper cabling).

The estimated labor to install this solution includes 3 8-hour business days for the configuration and set up of network and security equipment, 2 8-hour business days of solution architecture and project management, and 5 8-hour business days of cabling labor. Post-installation services are recommended to ensure the network equipment and security solution are routinely updated and maintained as needed. These services would be provided by Jacobs & Company B.I.T.S. monthly and would include Cloud hosting for network equipment management interface in our secure datacenter, routine monthly software and firmware upgrades for network and security system software, and network adjustments to comply with ever-changing security standards and regulations.

\$33,000 *Subject to market and supply

BREAM MEMORIAL PRESBYTERIAN CHURCH

P. O. BOX 6127
CHARLESTON, WV 25362-0127
(304) 346-0426

December 3, 2021

To: Mayor Amy Goodwin and the Charleston, WV City Council

Dear Mayor Goodwin and Council Members,

This letter shares Bream Memorial Presbyterian Church's intention to partner with the Religious Coalition for Community Renewal (RCCR) in creating and maintaining a day shelter and residential apartment facility at 319 West Washington Street. Bream Memorial Presbyterian Church owns this building; it abuts our parking lot on the corner of West Washington Street and Ohio Avenue. From 2013-2020, this property was occupied by the Charleston Montessori School.

Our church has a rich history of outreach to our community. In fact, we were founded in 1883 as a mission of the First Presbyterian Church of Charleston. Our campus, which includes the sanctuary and education wing (317); the activities building and gym, now called the "Henry B. Wehrle, Jr. Community Center" (315); and the Hubbard Building (319,) are available to the community. Currently fifteen organizations and groups in the greater Charleston area call Bream home. Our community partners include Cabin Creek, Health Rite, West Virginia Breast Health Initiative, and Appalachian Service Project, to name a few.

For decades, we have served our neighbors by providing a food pantry and clothing closet for those in need. A few years ago, our members helped an unhoused friend, Robert, (a.k.a. "Pop,") get off the street and into an apartment at Agsten Manor, where he continues to live. During the pandemic, we provided our gym as an overflow warming center, in case the Salvation Army needed a back-up location. In July of this year, we opened our locker rooms on three afternoons a week to those without access to restroom facilities so they could relieve themselves and take a shower. In these ways, and many more, we seek to be faithful to our mission of "welcoming all without partiality or discrimination, and being God's helping hands in our neighborhood." (www.breamchurch.com.)

We view our proposed partnership with RCCR as a natural extension of our mission. We plan to provide stable housing on the facility's upper floor for those who reach Level I recovery, and provide supportive services on the bottom floor for those experiencing homelessness---many of these services we already provide at this site. By providing a secure and stable space for people during the day, as well as the professional guidance needed to navigate the process for becoming housed, that those seeking help will enter transitional housing sooner, thereby making our community healthier, stronger, and safer for all. We are seeking funds through the American Rescue Plan Act to make this dream a reality.

Sincerely,

Derek Hudson, Clerk of Session
Bream Memorial Presbyterian Church

Reverend Dawn Adamy, Pastor
Bream Memorial Presbyterian Church

We are a diverse group of believers holding different viewpoints. We are however, united in our belief that God wants us to love God, one another, and ourselves.

December 3, 2021

To: Mayor Amy Goodwin and the Charleston, WV City Council

Dear Mayor Goodwin and Councilmembers

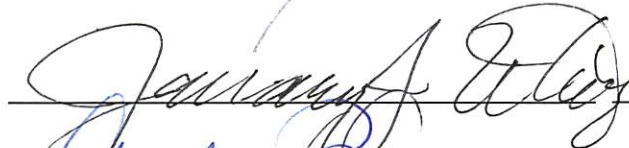

As merchants on the West Side of Charleston, we wish to express our support for the proposed day shelter and residential apartment facility to be located at 319 West Washington Street. We understand that this facility will provide stable housing on the upper level for those who have reached Level I recovery, and will provide supportive services on the lower level for those experiencing homelessness. It is the hope and expectation that by providing a secure and stable space for people during the day, as well as the professional guidance needed to navigate the process for becoming housed, that those seeking help can be placed in transitional housing that much sooner, thereby making our community healthier, stronger, and safer for all. The management of the facility and programming will be a partnership between the Religious Coalition for Community Renewal (RCCR) and the Bream Memorial Presbyterian Church.
